

AFRICA LEDS
Partnership

Advancing climate-resilient low
emission development in Africa

Africa Low Emission Development Strategies (LEDS) Partnership (AfLP)

African Mini-Grids Community of Practice

Cotonou, Benin

05-07 December 2018

AfLP at a glance

- One of four regional partnerships of the LEADS Global Partnership
- Over 600 members spanning 31 African Countries
- Membership comprises; government, project developers and NGOs
- Work in close collaboration with
 - **Energy Working Group**
 - AFOLU Working Group
 - **Finance Working**
 - Transport Working Group
 - Sub-national Integration Working Group

Objectives of the AfLP

Mission: *To promote low carbon emissions climate-resilient development, in support of poverty alleviation, job creation and environmental management in Africa.*

Objectives

1. Promote information exchange & coordination among LEDS Programmes & country institutions undertaking & supporting LEDS;
2. Cultivate and support LEDS champions across Africa;
3. Enhance capacity for LEDS design & implementation in Africa

The AfLP

Knowledge

Promoting Information exchange and coordination among LEDS Programmes and country institutions undertaking and supporting LEDS.

Exchange

Growing

Cultivating and supporting LEDS champions across Africa.

Champions

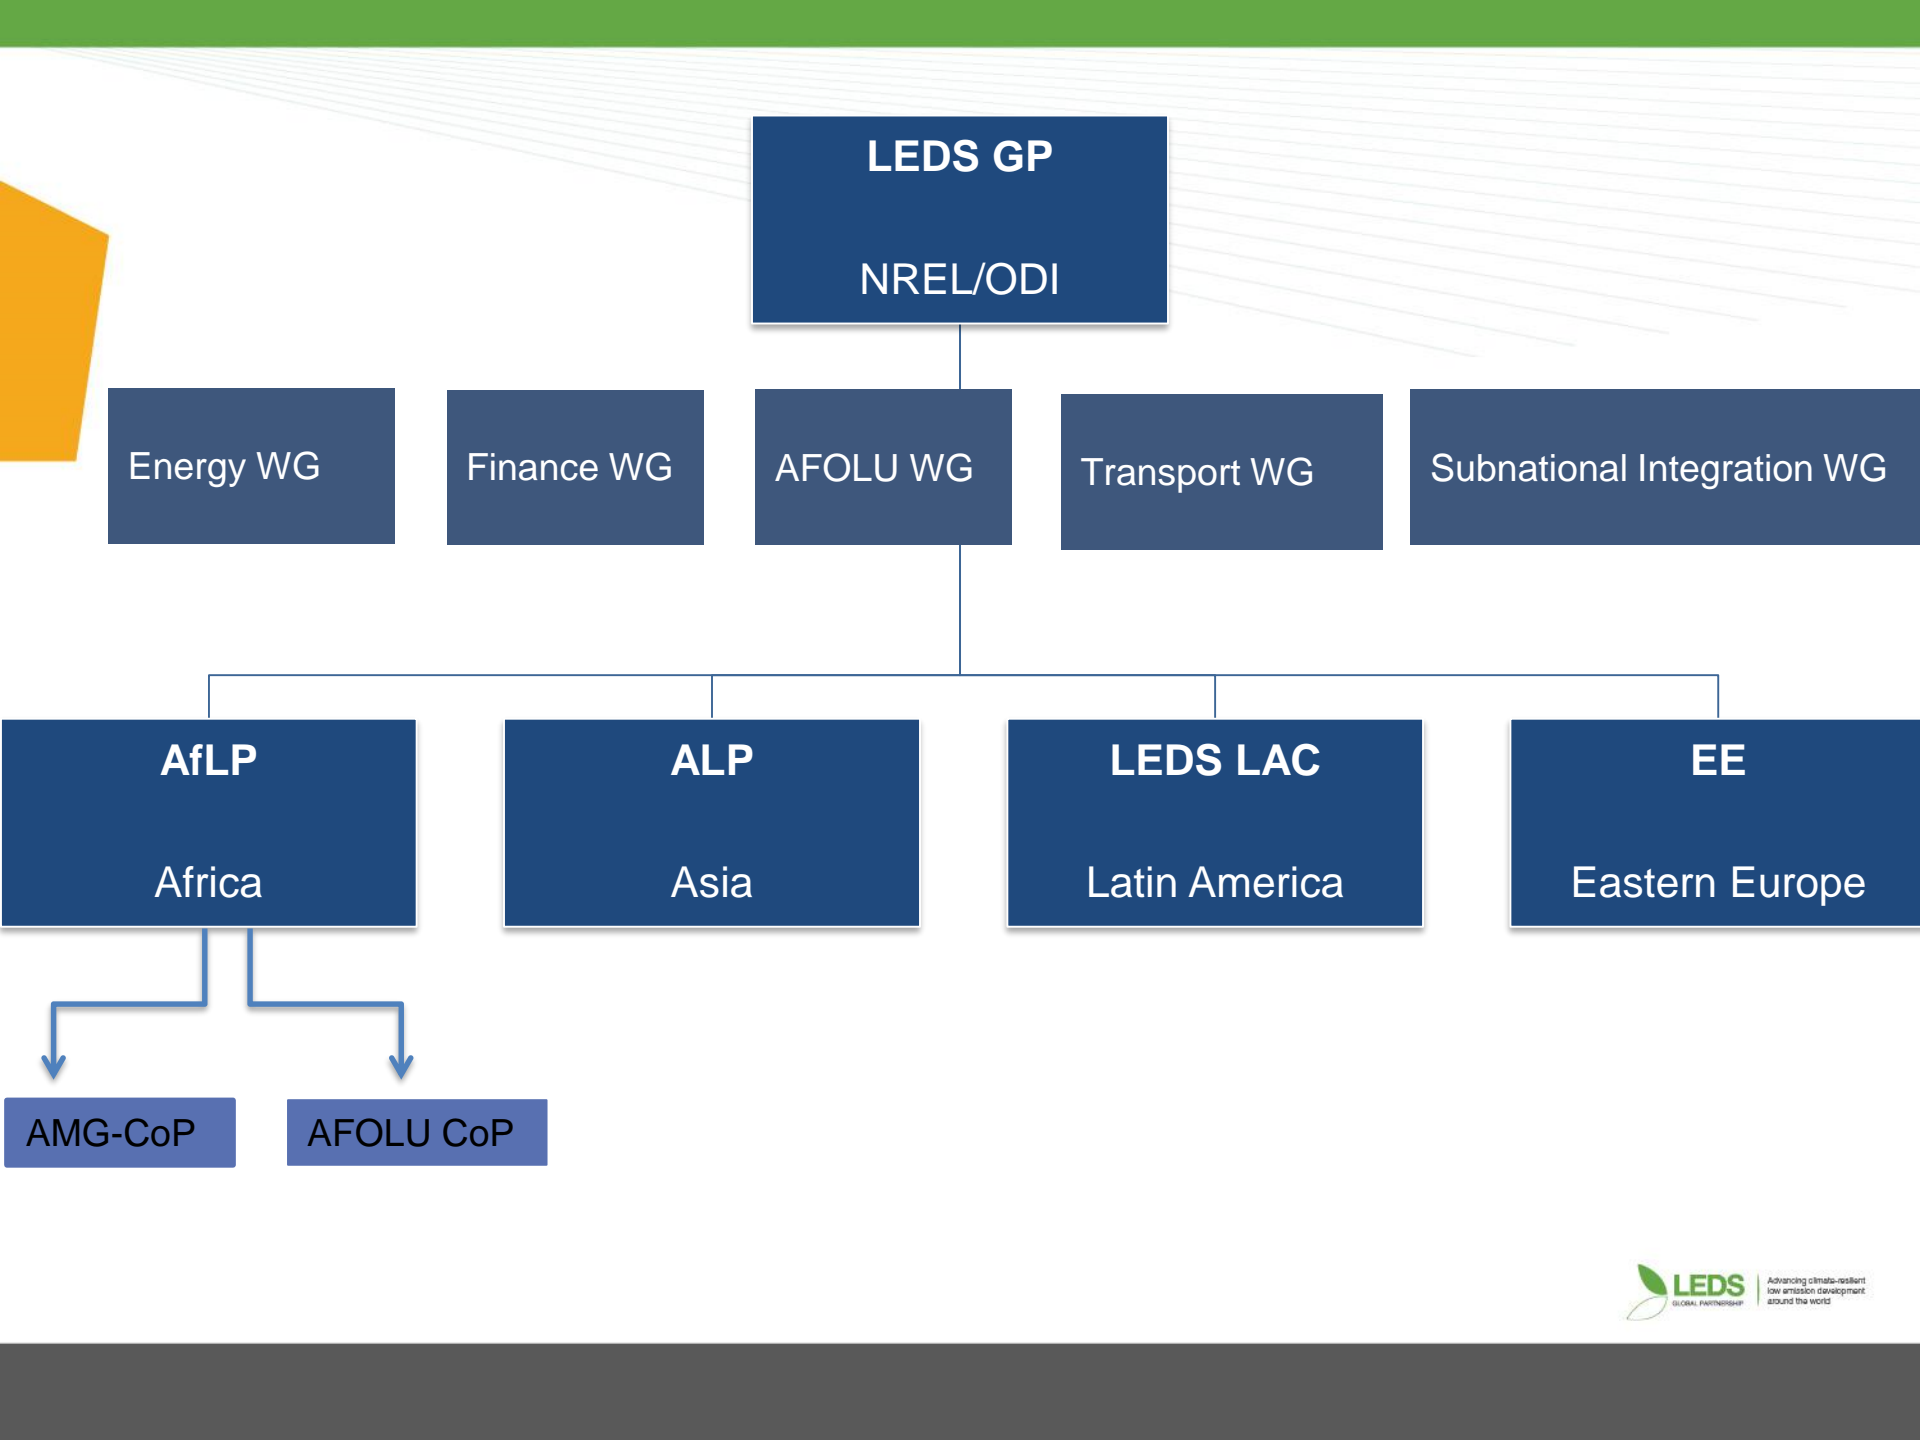

Utilising

and

Enhancing

Capacity

Enhancing capacity for LEDS design and implementation in Africa.

AMG-CoP

AFOLU CoP

A Community of Practice (CoP)

- Moving away from engaging in top-down development assistance.
- A network of engaged experts and practitioners from a shared sector or working area who form a group to regularly engage in peer-to-peer learning to improve their personal and collective group knowledge.
- They promote forms of exchange both inside and outside of formal communication channels and provide an inclusive, member-driven experience.
